

What are the requirements for registration under the E.P.R. guidelines of 2022?

- I. Entities obligated to seek registration (PIBO's and waste Processors) would need to apply on CPCB portal.
- II. In case an entity falls in more than one Sub-category of waste e.g. Producer, Importer, Brand Owner or Waste Processor then the entity would register under each sub category separately.
- III. If an entity has units in different States, then these units shall be registered separately. However, only one registration in a State would be needed if more than one unit is located in a state.
- IV. Registration of Producers, Importers or brand owners in one or two states or plastic waste processors shall be done in by the State Pollution Control Board/U.T. Committee through CPCB portal.
- V. The registration shall be as per a standard operating procedure laid down by the Central Pollution Control Board for the Purpose, as per the EPR guidelines.
- VI. While registering, the entities have to provide PAN No., G.S.T. No. CIN Number of the company and Aadhar number of authorised person or representatives.
